Marian Hamshere, ***Research Support:*** Sample collection and analysis was supported by the following grants: Medical Research Council (MRC) Centre (G0800509) and Program Grant (G0801418), the Wellcome Trust (WT; 078901), the European Community's⁷ Seventh Framework Programme (HEALTH-F2-2010-241909 (Project EU-GEI)), the Stanley Medical Research Institute via the Stanley Center for Psychiatric Research at the Broad Institute of MIT and Harvard, and by CONTE NIMH (5P50MH066392-09). Genotyping was supported by the WT under WTCCC+ (Bipolar and controls) and WTCCC2. We thank the WTCCC2 project funded by WT (083948/Z/07/Z) for making available the control data. We acknowledge use of

the British 1958 Birth Cohort DNA collection, funded by the MRC (G0000934) and the WT (068545/Z/0), the UK Blood Services collection of Common Controls (UKBS-CC collection), funded by the WT (076113/C/04/Z) and by NIHR programme grant to NHSBT (RP-PG-0310-1002). ; **Human or Animal Ethics Board Review:** Yes

Marian Hamshere, **Research Support:** We would like to thank all the families and clinicians who participated in the ADHD research project that was funded by the Wellcome Trust. We also thank the Wellcome Trust Case Control Consortium 2 for making available the control data project funded by Wellcome Trust grant 083948/Z/07/Z). We acknowledge use of the British 1958 Birth Cohort DNA collection, funded by the Medical Research Council grant G0000934 and the Wellcome Trust grant 068545/Z/0 as well as the UK Blood Services collection of Common Controls (UKBS-CC collection), funded by the Wellcome Trust grant 076113/C/04/Z and by NIHR programme grant to NHSBT (RP-PG-0310-1002). We thank all those who participated in, or helped with, the bipolar disorder sample collection, including members of the Bipolar Disorder Research Network and Bipolar UK, and are indebted to the Wellcome Trust Case Control Consortium (WTCCC1) for genotyping the bipolar disorder sample. Finally, we are grateful to our many colleagues within the Psychiatric GWAS Consortium (PGC) Schizophrenia Workgroup and Bipolar Disorder Workgroup for their collaborative analyses and publications that informed our current polygenic analysis.; **Human or Animal Ethics Board Review:** Yes

The data for this study were collected between 2005 and 2009. The authors want to thank Wyeth Laboratories for providing all study medication. The study was registered under clinical trials.gov. Identifier: NCT00183274 ; **Human or Animal Ethics Board Review:** Yes

Julien Lustig, **Investigative/Off-Label Use of a Product:** Investigational product. Product code: AFQ056; **Research Support:** Sponsor of clinical trials: Novartis Pharma Services AG; **Human or Animal Ethics Board Review:** Yes

Daniel Müller, **Research Support:** CIHR operating grant to DJM (Genetics of antipsychotics induced metabolic syndrome, MOP 89853); NARSAD Young Investigator Award to DJM, CIHR Michael Smith New Investigator Salary Prize for Research in Schizophrenia to DJM, OMHF New Investigator Fellowship to DJM and an Early Researcher Award by the Ministry of Research and Innovation of Ontario.; **Human or Animal Ethics Board Review:** Yes

Stefanie Malan, **Research Support:** Medical Research Council of South Africa Grant; **Human or Animal Ethics Board Review:** Yes

Katarzyna Mantha, **Research Support:** CIHR to Shiva Singh; **Human or Animal Ethics Board Review:** Yes

Eden Martin, **Research Support:** Hussman Foundation National Institute of Mental Health ; **Human or Animal Ethics Board Review:** Yes

Joanna Martin, **Research Support:** This work has been funded by the Wellcome Trust (grant number: 079711), Action Medical Research (grant code: SP4198) and Baily Thomas Charitable Trust (grant code: RCUE083). ; **Human or Animal Ethics Board Review:** Yes

Katherine Maxfield, **Research Support:** National Institutes of Health; **Human or Animal Ethics Board Review:** No

Martyn McFarquhar, **Research Support:** This study was funded by the NewMood EU Integrated Programme LSHM-CT-2004-503474.; **Human or Animal Ethics Board Review:** Yes

Nathaniel McGregor, **Research Support:** National Research Foundation (NRF); **Human or Animal Ethics Board Review:** Yes

Kristina Melkersson, **Research Support:** This work was supported by grants from the Swedish Research Council.; **Human or Animal Ethics Board Review:** Yes

Annette Milnik, **Research Support:** This work was funded by the Swiss National Science Foundation (Sinergia grants CRSIK0_122691, CRSI33_130080 to D.Q. and A.P.), by the 7th Framework Programme of the European Union (ADAMS project, HEALTH-F4-2009-242257) and by the National Center for Competence in Research SYNAPSY.; **Human or Animal Ethics Board Review:** Yes

Marina Mitjans, **Research Support:** This study was supported through research projects funded by the Ministry of Science and Innovation (SAF2008-05674-C03-00, FIS07/0815, IT2009-0016 and PNSD2008-I090), the Institute of Health Carlos III, CIBER of Mental Health (CIBERSAM) and the Comissionat per a Universitats i Recerca del DIUE of the Generalitat de Catalunya (2009SGR827). ; **Human or Animal Ethics Board Review:** Yes

Marina Mitjans, **Research Support:** Centro de Investigación en Red de Salud Mental (CIBERSAM); Instituto Carlos III (PI080247)-PN 2008-2011- Subdirección General de Evaluación y Fomento de la Investigación; Fondo Europeo de Desarrollo Regional. Unión Europea. Una manera de hacer Europa; Spanish Ministry of Economy and Competitiveness; Comissionat per a Universitats i Recerca del DIUE (2009SGR827) and to the Bipolar Disorders Group (2009SGR1022). ; **Human or Animal Ethics Board Review:** Yes

Tim Moons, **Research Support:** This research was supported by an unrestricted grant from Eli Lilly.; **Human or Animal Ethics Board Review:** Yes

Richard Musil, **Research Support:** The study was performed within the framework of the

German Research Network on Depression, which was funded by the German Federal Ministry for Education and Research BMBF (01GI0219). The BMBF had no further role in study design, in the collection, analysis and interpretation of data, in the writing of the report, nor in the decision to submit the paper for publication.; **Human or Animal Ethics Board Review:** Yes

Richard Musil, **Research Support:** The study was performed within the framework of the German Research Network on Depression, which was funded by the German Federal Ministry for Education and Research BMBF (01GI0219). The BMBF had no further role in study design, in the collection, analysis and interpretation of data, in the writing of the report, nor in the decision to submit the paper for publication. ; **Human or Animal Ethics Board Review:** Yes

Aye-Mu Myint, **Financial Relationships:** Advanced Practical Diagnostics N.V. (no relationships defined); **Research Support:** Advanced Practical Diagnostics N.V.; **Human or Animal Ethics Board Review:** Yes

Tibor Nanasi, **Investigative/Off-Label Use of a Product:** NONE; **Research Support:** This work was supported by the Hungarian Scientific Research Funds: OTKA K81466 and OTKA K100845.; **Human or Animal Ethics Board Review:** Yes

Krishnadas Nandagopal, **Research Support:** Govt. of India-Department of Science and Technology-SERC grant (SR/SO/HS-59/2003) awarded to Krishnadas Nandagopal; **Human or Animal Ethics Board Review:** Yes

Igor Nenadic, **Research Support:** The study was supported by grants from the IZKF / University of Jena (Junior Scientist Grant to I.N.), the EU (Marie Curie Fellowship to Raka Maitra, as part of the EUTwinsS network, FP6: RTN; local PIs: S.C., M.M.N., I.N., and H.S.), the BMBF (grant 01EV0709 to C.G.), grant AQ4 FKZ01ZZ0405 (to R.G.M.S. and J.R.R.), TMWFK (grant B307-04004 to R.G.M.S), as well as the National Genome Research Network (NGFN) of the German Federal Ministry of Education and Research (BMBF) to MR (FKZ: 01GS08147).; **Human or Animal Ethics Board Review:** Yes

Alexander Niculescu, **Financial Relationships:** Janssen (Speaker's Bureau); Mindscape Diagnostics (no relationships defined); Sunovion (Speaker's Bureau); **Research Support:** NIH and Veterans Administration; **Human or Animal Ethics Board Review:** Yes

Vanessa Nieratschker, **Research Support:** Olympia-Morata-Fellowship University of Heidelberg; **Human or Animal Ethics Board Review:** Yes

Beate Niesler, **Research Support:** European Science Foundation; **Human or Animal Ethics Board Review:** No

Niamh O'Brien, **Research Support:** MRC grant; **Human or Animal Ethics Board Review:** Yes

Hanna Ollila, **Research Support:** Jalmari and Rauha Ahokas foundation, Biomedicum Helsinki science foundation, Instrumentarium science foundation, The Finnish Heart association; **Human or Animal Ethics Board Review:** Yes

Vanessa Ota, **Research Support:** Fundação de Amparo à Pesquisa do estado de São Paulo (FAPESP); **Human or Animal Ethics Board Review:** Yes

Vanessa Ota, **Research Support:** FAPESP; **Human or Animal Ethics Board Review:** Yes

Takeshi Otowa, **Research Support:** This work was supported by Grants-in-Aid for Scientific Research on Priority Areas "Comprehensive Genomics" and "Applied Genomics" (no. 17019029; no. 21300242) from the Ministry of Education, Culture, Sports, Science and Technology of Japan (Principal Investigator: Professor T Sasaki). TO was supported by research fellowship from the Japan Society for the Promotion of Science (no. 21-8373).; **Human or Animal Ethics Board Review:** Yes

Abraham Palmer, **Research Support:** MH079103; **Human or Animal Ethics Board Review:** Yes

Veerle Paternoster, **Research Support:** The Lundbeck Foundation Initiative for Integrative Psychiatric Research, iPSYCH; **Human or Animal Ethics Board Review:** Yes

Diana Pendicheva, **Research Support:** This research was supported by a grant from Medical University of Pleven, Bulgaria (Research Project No 12/2011).; **Human or Animal Ethics Board Review:** Yes

Joao NS Pereira, **Research Support:** This project was supported by the German Research Foundation (DFG) grants KFO241 and TZ 74/1-1.; **Human or Animal Ethics Board Review:** No

Robert Power, **Research Support:** MRC PhD funding; **Human or Animal Ethics Board Review:** Yes

Ulrich Preuss, **Investigative/Off-Label Use of a Product:** U.W.P. has financial interests/arrangements or affiliations with one or more organizations that could be perceived as a conflict of interest in the context of the subject of this presentation. He received either consultancy or lecture fees from Pfizer, Astra-Zeneca, Eli-Lilly, Janssen, Novartis in the past 3

years.; **Research Support:** Grant, Lundbeck, Pfizer; **Human or Animal Ethics Board Review:** Yes

Giorgia Quadri, **Research Support:** Brain Damage Research Trust; **Human or Animal Ethics Board Review:** Yes

Carina Quast, **Research Support:** This work has been funded by the Excellence Foundation for the Advancement of the Max Planck Society, the Bavarian Ministry of Commerce, and the Federal Ministry of Education and Research (BMBF) in the framework of the National Genome Research Network (NGFN2 and NGFN-Plus, FKZ 01GS0481 and 01GS08145 (Moods)).; **Human or Animal Ethics Board Review:** Yes

Anto P. Rajkumar, **Research Support:** This research is supported by the Lundbeck Foundation Initiative for Integrative Psychiatric Research, iPSYCH, Denmark; **Human or Animal Ethics Board Review:** Yes

Tamás Raskó, **Research Support:** Application for Funding II of the Integrated Genome Research Network (IG) MooDS Funding Period 2011 - 2013; **Human or Animal Ethics Board Review:** No

Elliott Rees, **Investigative/Off-Label Use of a Product:** NONE; **Research Support:** Stanley Medical Research Institute, Medical Research Council (UK) programme grant. ; **Human or Animal Ethics Board Review:** Yes

Brien Patrick Riley, **Research Support:** NIH grants R01-AA011408 and P20-AA017828; **Human or Animal Ethics Board Review:** Yes

Margarita Rivera, **Research Support:** Marie Curie Intra European Fellowship for Career Development (IEF-2008); **Human or Animal Ethics Board Review:** Yes

Ida Elken Sønderby, **Research Support:** Helse SoerOest, post.doc.-grant Ida Elken Soenderby; **Human or Animal Ethics Board Review:** Yes

Kaitlin Samocha, **Research Support:** Harvard Clinical and Translational Science Center (CTSC) NIH Training Grant; **Human or Animal Ethics Board Review:** Yes

Hugo Sandoval, **Research Support:** NIMH; **Human or Animal Ethics Board Review:** Yes

Maria Sasvari-Szekely, **Research Support:** This work was supported by the Hungarian Scientific Research Funds: OTKA K81466 and OTKA K100845; **Human or Animal Ethics Board**

Review: Yes

Henriette Schmock, **Research Support:** This study was financed through grants to Professor Werge from the Lundbeck Foundation (R34-A3243), the Danish National Advanced Technology Foundation (001-2009-2). ; **Human or Animal Ethics Board Review:** Yes

Alexandra Schosser, **Research Support:** Acknowledgement: funded by Austrian Nationalbank Project Nr.13198 (to H.A.); **Human or Animal Ethics Board Review:** Yes

Björn Schott, **Research Support:** Supported by the Bundesministerium für Bildung und Forschung (NGFN-MooDS) and the Deutsche Forschungsgemeinschaft (DFG SFB 779, TP A8).; **Human or Animal Ethics Board Review:** Yes

Christoph Schultz, **Research Support:** This work was supported by the Bundesministerium für Bildung und Forschung, BMBF Grant 01GW0740 and the Interdisciplinary Center for Clinical Research of the University of Jena (IZKF).; **Human or Animal Ethics Board Review:** Yes

Sibylle Schwab, **Research Support:** NHMRC513861; **Human or Animal Ethics Board Review:** Yes

Thomas Schwei, **Research Support:** National Institutes of Health SBIR grant; **Human or Animal Ethics Board Review:** No

Mari Sepp, **Research Support:** This work was supported by Estonian Ministry of Education and Research (0140143) and Estonian Science Foundation (7257, 8844).; **Human or Animal Ethics Board Review:** Yes

Sally Sharp, **Research Support:** The research was funded by the British Medical Association Margaret Temple schizophrenia research fund, a UK Overseas Research Student (ORS) award and the Neuroscience Research Charitable Trust; **Human or Animal Ethics Board Review:** No

Alexander Shaw, **Research Support:** This research was supported by the Australian National Health and Medical Research Council (NHMRC project grant 630574) and the Schizophrenia Research Institute (Sydney, Australia).; **Human or Animal Ethics Board Review:** Yes

Yu-Chih Shen, **Research Support:** Funding for this study is provided by the National Science Council of Taiwan (NSC 99-2314-B-303-010-MY3). ; **Human or Animal Ethics Board Review:** Yes

Joyce So, **Research Support:** Canadian Institutes of Health Research; **Human or Animal Ethics Board Review:** Yes

Helen Spiers, **Research Support:** BBSRC; **Human or Animal Ethics Board Review:** Yes

Fabian Streit, **Research Support:** Fabian Streit was a member of the International Research Training Group in Psychoneuroendocrinology of Stress (GRK 1389), funded by the Deutsche Forschungsgemeinschaft (DFG). This work was supported by the Deutsche Forschungsgemeinschaft (SFB636). ; **Human or Animal Ethics Board Review:** Yes

Jana Strohmaier, **Research Support:** JS was supported by the German Research Foundation (GRK 793); **Human or Animal Ethics Board Review:** Yes

Sonja Sulkava, **Research Support:** This study was supported by the Academy of Finland (grant # 124404 for Tiina Paunio), Sigrid Juselius foundation, and by University of Helsinki (TYH2010306) to Dr Tiina Paunio. ; **Human or Animal Ethics Board Review:** Yes

Jin Szatkiewicz, **Research Support:** United States National Institute of Mental Health; **Human or Animal Ethics Board Review:** Yes

Ene-Choo Tan, **Research Support:** National Medical Research Council, Ministry of Health, Singapore; **Human or Animal Ethics Board Review:** Yes

Martin Tesli, **Research Support:** SouthEast Norway Health Authority (#2004123, #2008-080); **Human or Animal Ethics Board Review:** Yes

Geeta Thakur, **Research Support:** Fonds de la recherche en sante du Quebec and Canadian Institutes of Health Research; **Human or Animal Ethics Board Review:** Yes

Ismail Thanseem, **Research Support:** This work was supported by Grants-in-Aid for Scientific Research from the Ministry of Education, Culture, Sports, Science, and Technology of Japan to Dr. Norio Mori, Dr. K. Nakamura and Dr. Ismail Thanseem; **Human or Animal Ethics Board Review:** Yes

Arun Tiwari, **Research Support:** Canadian Institute of Health Research Operating Grants to DJM; **Human or Animal Ethics Board Review:** Yes

Yash Tiwari, **Research Support:** NHMRC PROJECT GRANT: 630574; **Human or Animal Ethics Board Review:** Yes

Claudio Toma, **Research Support:** Fundaci3n La Marat3n de TV3 (092010), Marie Curie, PIEF-GA-2009-254930; **Human or Animal Ethics Board Review:** Yes

Federica Torri, **Research Support:** This work was funded in part by the National Institutes of Health through Grants U54 RR021813, 9P41EB015922-15, 2-P41-RR-013642-15, R01 MH71940, U24-RR025736, U24-RR021992, U24-RR021760 and U24-RR026057. We are also indebted to the members of the Laboratory of Neuro Imaging (LONI), the Biomedical Informatics Research Network (BIRN), and Clinical and Translational Science Award (CTSA) investigators, NIH Program officials, and many general users for their patience with beta-testing the Pipeline and for providing useful feedback about its state, functionality and usability. Benjamin Berman and Zack Ramjan from the USC Epigenome Center, University of Southern California, provided help with definition of sequence pre-processing. The authors also thank Bernard Chang for assistance with system administration of the UCI Pipeline servers; **Human or Animal Ethics Board Review:** Yes

Jens Treutlein, **Research Support:** This work was supported by grants U01 HL089856, R01 MH087590 and R01 MH081862 from the National Heart, Lung, and Blood Institute (to M.M.), by grant FKZ 01GS08152 from the National Genome Research Network (NGFNplus) (see under <http://www.ngfn-alkohol.de> and Spanagel et al. 2010) (to M.R., M.M.N.) of the German Federal Ministry of Education and Research and by grants FKZ 01GS0117/NGFN and FKZ EB 01011300. K.M. was supported by grant 01EB0410 from the Bundesministerium f3r Bildung und Forschung. M.M.N. and S.C. received support from the Alfred Krupp von Bohlen und Halbach-Stiftung.; **Human or Animal Ethics Board Review:** Yes

Maria Tropeano, **Research Support:** This project and the BBGRE database (BBGRE.org) was funded through a strategic partnership of the South London and Maudsley Trust NIHR specialist Biomedical Research Centre and the Guys and St Thomas Trust NIHR comprehensive Biomedical Research Centre. DAC is funded by the European Commission Seventh Framework project PsychCNVs (<http://www.psych-cnv.eu/>; Grant agreement number HEALTH-2007-2.2.1-10-223423). This work was supported by the Wellcome Trust (Wellcome Trust Case control consortium; WTCCC2) (DAC).; **Human or Animal Ethics Board Review:** Yes

Marc Udina, **Research Support:** Spanish Grants: Instituto Carlos III, FIS/P110/01827 (Mart3n-Santos & Sol3) and EC08/00201 (Mart3n-Santos & Sol3) and SGR2009/1435 (Mart3n-Santos).; **Human or Animal Ethics Board Review:** Yes
